SURFACE

HYPER MATERIALS

Fusion è una superficie per l'arredo e l'interior design che fa parte di Hyper Materials, la collezione di Cleaf composta da soluzioni originali, sintesi di tecnica, materiali, stile e sostenibilità.

Fusion is a surface for furniture and interior design from Cleaf's Hyper Materials collection, which is composed of original solutions, a synthesis of technique, materials, style and sustainability.

THE FIRST OF ITS KIND

L'aspetto straordinario di Fusion è quello di includere un tessuto all'interno di una superficie rigida. Il primo nel suo genere, frutto di un percorso di ricerca, sia tecnologico che estetico, che ha portato alla creazione di un brevetto europeo che ne definisce il metodo produttivo (EP 2 189 298 A1). L'aspetto tattile esprime tutta la potenza del tessuto, la perfetta aderenza alla superficie garantisce applicazioni verticali per arredi e pareti.

The extraordinary aspect of Fusion is to include a fabric within a rigid surface. The first of its kind, it's the result of a research path, both technological and aesthetic, which led to the creation of a European patent that defines the production method (EP 2 189 298 A1). The tactile aspect expresses all the power of the fabric, the perfect adherence to the surface guarantees vertical applications for furniture and walls.

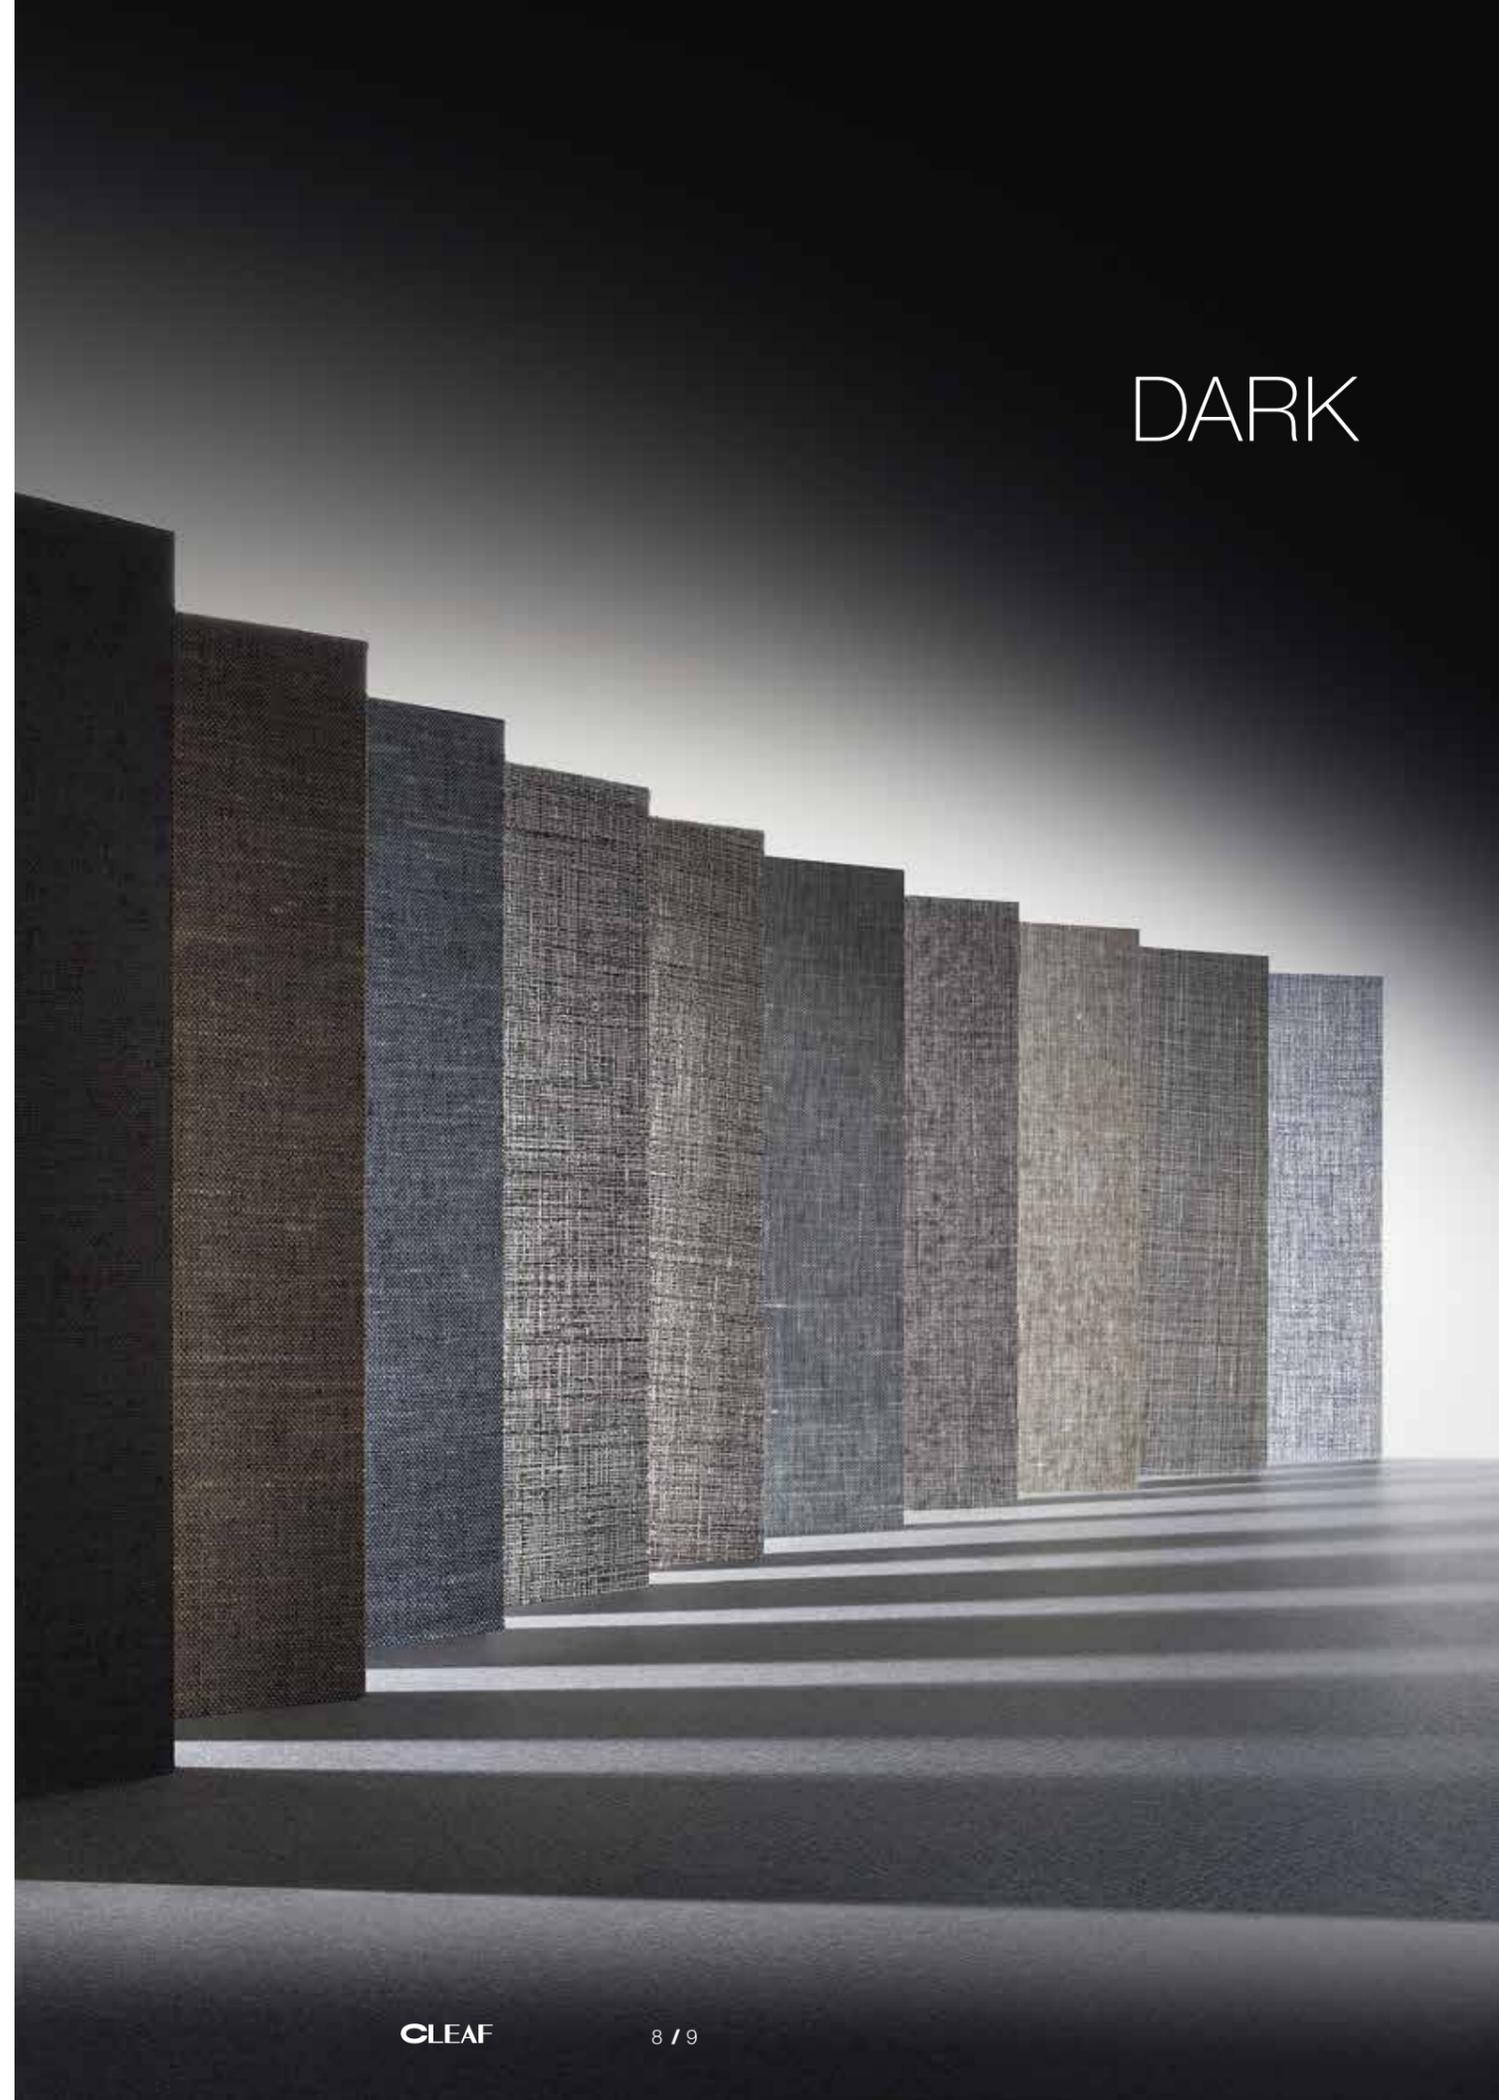

applicazioni verticali - pannello nobilitato
vertical applications - faced panel

THE COLLECTION

20 prodotti, 10 tessuti, 2 intensità di colore.
